Ceilings & Acoustical Solutions

**Architect:** HKS  
Inc

**General Contractor:** Austin Commercial

This hotel and conference center on the University of Texas campus is the facility that helps fill the needs of the university in holding conferences and lodging for executives from all over the world. With its 40,000 square feet of meeting space, nearly 300 guest rooms, and dining facilities, it has become the leading place to convene for conferences and meetings held at the university. Marek's craftsmanship and attention to detail is evident throughout the facility in the construction of the ballroom's tiered gypsum ceilings, barrel vaulted wood ceilings, acoustical sound panels, and signature GFRG State of Texas seal in the Lobby.
